ATTACHMENT "A" PROJECT SCOPE

DES ALLEMANDS PARK PLANNING SERVICES Project No. (220208)

The Scope of Work is as follows:

The scope involves development of a master plan for the 110-acre parcel located between Highway 632 and Bayou Des Allemands, where the proposed boat launch and access road will be built. The master plan will be inclusive of a due diligence assessment, community survey, concept development and plan development as described below. The master plan will be used to generate additional funding for the remaining portion of the project, not including the access road and boat launch. The master plan will consider a variety of improvements that can be accomplished within the boundaries of the parcel, as well as phasing options for said improvements.

DUE DILIGENCE/ASSESSMENT PHASE

Upon written authorization from OWNER, CONSULTANT shall:

- a. Conduct an on-site audit with photographic/video documentation of existing site conditions.
- b. Prepare graphic maps that assist in delineating the site's development opportunities and constraints with consideration to environmental concerns, roadway alignment, views, solar and wind orientation, soils, flora and fauna, and site drainage patterns.
- c. Prepare a scaled park base plan based on the on-site audit and previously completed items, including but not limited to, topographic survey, LIDAR, geographic data, and previous planning.
- d. Phase deliverable includes the scaled park base plan sent to the OWNER electronically. After review of the base plan, CONSULTANT shall incorporate any comments and revisions as determined by the OWNER.

COMMUNITY SURVEY PHASE

Upon completion of the Due Diligence/Assessment Phase, CONSULTANT shall:

- a. Develop an online digital survey for community-wide distribution by the Parish. The survey shall use photographic examples of potential project elements to establish "Community Values" that will assist in developing a design theme and programmatic components the park should include.

- b. Present results from the Community Survey to the OWNER and discuss as needed. OWNER may determine items to include or remove as CONSULTANT proceeds to the Concept Development Phase. OWNER may determine that an in-person Town Hall Meeting with locals would serve an added benefit to development of a park concept. This meeting is to be discussed if the Community Survey yields little response.

CONCEPT DEVELOPMENT PHASE

Upon completion of the Community Survey Phase, CONSULTANT shall:

- a. Develop varying park concepts by incorporating results from the Community Survey and Due Diligence/Assessment Phases, as well as any OWNER input up until this point.
- b. Prepare two (2) scaled alternative diagrammatic site plan sketches for the study area. These alternatives will illustrate development concepts with hand-sketches, color rendered plans laid on top of the aerial imagery and existing site plan data. The alternatives will be supplemented with precedent images of photographic examples to demonstrate the design concepts offered.
- c. Phase deliverable includes the two (2) scaled alternative site plan sketches sent to the OWNER electronically. After review of the concept, CONSULTANT shall incorporate any comments and revisions as determined by the OWNER. If an in-person meeting is deemed necessary by either the OWNER or CONSULTANT then the CONSULTANT shall coordinate.

MASTER PLAN DEVELOPMENT PHASE

Upon completion of the Concept Development Phase, CONSULTANT shall:

- a. Develop a draft Master Plan with the following items:
 - 1. **Rendered Site Plan** – will outline the proposed development. The plan will be developed in an AutoCAD drawing and will be digitally rendered and labeled to illustrate the overall design intent.
 - 2. **Photographic Precedent Images** – will demonstrate the design intent with the use of photographic examples of the intended design solution.
 - 3. **Rendered Perspective** – will prove the design objective by creating a single (1) illustration of the proposed improvements.
- b. Present the draft Master Plan to the OWNER and public for general input/comments. Draft a questionnaire for the OWNER to distribute to the public for more feedback.

- c. Conduct a meeting with the internal steering committee (OWNER) to get input, guidance and preferences to programmatic components and diagrammatic alternatives to inform the design team in developing the final Master Plan.
- d. After considering all feedback up until this point of design, the CONSULTANT is to finalize the Master Plan including the following items:
 - 1. **Final Site Plan (Rendered)** – will outline the proposed development. The plan will be developed in an AutoCAD drawing and will be digitally rendered and labeled to illustrate the overall design intent.
 - 2. **Final Precedent Images** – will demonstrate the design intent with the use of photographic examples of the intended design solution.
 - 3. **Final Rendered Perspective** – will prove the design objective by creating a single (1) illustration of the proposed improvements.
 - 4. **Rough Order of Magnitude Costing** – will assign preliminary construction cost of the project to assist with establishing a budget for the comprehensive development of the park.
 - 5. **Phasing Strategy** – will categorize components into sequential projects that can be implemented independently based on priority and funding.
 - 6. **Funding Strategy** – will identify funding sources (public and private) to pay for the implementation of various project components.
- e. Phase deliverable includes the full final Master Plan to the OWNER both electronically and hard copies as requested. No more than six (6) hard copies will be requested.
