Mr. Franke,

Per our conversation this morning your cost on the cypress beam discussed $(4 \times 6 \times 8' \# 2 \text{ and better})$ would be \$56.00 ea plus applicable taxes delivery to Norco would be \$20 and lead time would be approximately 3 weeks to cut.

keep in mind this is a "green" beam and is likely to check as it dries out naturally.

Regards,

The purpose of this scope of services is to describe and identify the processes, procedures and duties for the yearly operation of a state and federally approved Parish Local Coastal Management Program (LCMP) as a part of the Louisiana Coastal Resources Program (LCRP), in accordance with the rules and regulations of the LCRP and Louisiana R.S. 49, sections 214.21 to 214.41, the State and Local Coastal Resources Management Act of 1978 (SLCRMA), as amended, and the approved Parish LCMP Documents and Ordinances. This scope of services details specific actions and deliverables that must be performed by the parish in conducting the operation of its LCMP. The LCMP must operate consistent with its program documents and with the state program. In addition to operating its program as approved, specific deliverables must be submitted to the Louisiana Department of Natural Resources (LDNR) to ensure that federal, state and local reporting and other requirements are fulfilled including the requirements of the Louisiana Coastal Wetlands Conservation Plan and Louisiana's Comprehensive Master Plan for a Sustainable Coast.

Implementation Goals of the Parish LCMP are to:

- protect, develop, and where feasible, restore and enhance the resources within the Parish's coastal zone;

- employ procedures and practices that resolve conflicts among competing uses within the coastal zone;
- develop and implement a coastal resources management program which is based on consideration of our resources; the environment; and the needs of the people of the Nation, the State, and the Parish;
- enhance opportunities for the use and enjoyment of the recreational values of coastal zone areas;
- express certain regulatory and non-regulatory policies for the LCMP;
- develop and implement a reasonable and equitable coastal resources management program with sufficient expertise, technical proficiency, and legal authority to enable the Parish to determine the future course of development and conservation of the coastal zone; and
- provide for regular inspection of coastal zone areas to report violations and monitor permit compliance of public and private contractors.

RECOMMENDATIONS AT A GLANCE

PZO-2018-04 requested by Mary Keller Clulee, Councilwoman District II for an ordinance to amend the Code of Ordinances to add uses to the Medical Services (MS) Zoning District, Appendix A. Section VI.I.1.a, by adding Professional and subprofessional offices.

Commissioner Booth: Last item on the agenda tonight is PZO-2018-04 requested by Mary Keller Clulee, Councilwoman District II for an ordinance to amend the Code of Ordinances to add uses to the Medical Services (MS) Zoning District, Appendix A. Section VI.I.1.a, by adding Professional and sub-professional offices. Ms. Stein.

Ms. Stein: Thank you Mr. Chair. A little teeny bit of history, these medical services zoning districts date to the '20's when zoning was being adopted nationwide and the intent for this type of district at that time was to separate disease and separate certain populations of people, people who we now would not separate from our communities and send them off to the hinder lands. The zoning districts are a little bit antiquated, they're really clunky and in the '70's and '80's right before we adopted our zoning ordinance, they were kind of transitioning into zoning districts that would protect neighboring commercial and industrial areas and residential areas from very large institutions that are bulky, that have a lot of loud equipment, that get deliveries and emergency vehicles flying in and out of the property 24-7, it's an emergency. Anyway the zoning district is not super helpful the way it's written and as a result we have a couple of different properties that have some vacancy in them because what is permitted in the medical services district is extremely restrictive. The proposal is to open up the medical services district to just professional and sub-professional offices. The result will be higher occupancy rates in these buildings and that is a great thing so we recommend approval.

Commissioner Booth: Ok. This is a public hearing for PZO-2018-04 for the medical services zoning district as explained. Yes Ma'am.

I'm Mary Clulee, 221 Evelyn Drive, Luling, La. This is brought before you tonight to get the Plantation View Medical Building which is at the foot of the 310 at River Road on the east bank into compliance. There are offices her available that are perfect for business use – attorneys, insurance and I think Apache is already there. So I would appreciate your support and like Ms. Marny said that it was a zoning that now is no reason to exist so I appreciate your support too to bring this building into compliance. Thank you.

Commissioner Booth: Yes Ma'am. Anyone else here to speak for or against this particular issue? Seeing none, the public hearing is closed. Any questions or comments from the Commission?

Commissioner Granier: I have a comment.

Commissioner Booth: Yes Sir.

Commissioner Granier: For the record I will abstain since Apache is a proud occupier of Plantation View and I probably don't need to vote and plus I'm trying to see if we can get it to 10:00 so I wanted to say something else too.

Commissioner Booth: Yes Sir. Any other questions or comments? Call for the vote.

YEAS: Gordon, Petit, Richard, Booth, Frangella, Galliano

NAYS: None ABSENT: None ABSTAIN: Granier

Commissioner Booth: That passes with Mr. Granier abstaining.

St. Charles Parish Department of Planning & Zoning

Land Use Report PZO-2018-04 Introduced by Mary Keller Clulee, Councilwoman District II

To add professional and sub-professional offices to the MS Zoning District

Background

In the late 20s/early 30s when zoning was being adopted nationwide, communities used medical zoning districts to isolate disease and separate certain people from the general population in institutions. A medical or institutional zoning district would be on the outskirts of town, or across the lake and the ordinance would include terms like infirm, insane, and incurable. Finding new uses for these isolated institutions is challenging.

By the 1980s, when St. Charles Parish adopted the current zoning ordinance, isolated medical services districts were no longer necessary to prevent the spread of disease. However, many medical services, in-patient, long-term, and emergency care, for example, were still being provided in large medical buildings that operate 24-hours per day and require loud mechanical equipment, abundant parking, and 24-hour deliveries. The Parish's MS zoning district is designed to mitigate impacts of these institutional uses to residential and commercial areas.

Healthcare today is offered more and more in smaller clinics and offices that can be permitted in the C-2 and C-3 zoning district. As the C-2 and C-3 zoning district offers office space that is better connected to communities and more accessible for residents and works for many medical service providers, large-scale facilities like Riverview Medical Center/Ochsner Health Center-Destrehan still require MS zoning. The result is a large building that has taken professional/sub-professional office tenants from non-medical fields and still has office space available.

Planning and Zoning context

The addition of professional and sub-professional offices to the MS, Medical Services Zoning District would bring existing non-medical professional and sub-professional offices located within medical complexes into compliance and allow for greater flexibility in occupying these larger buildings.

Potential outcomes

Higher occupancy rates in the large complexes in the MS zoning district.
