“Mosquito Control”

Control Measures:

- To date Mosquito Control Inc. has sprayed in excess of 30 million sq. ft. of floodwater and permanent breeding sites

“Mosquito Control”

- Ground Adulticiding has resulted in 8,200 miles sprayed by truck. Covering over 240,000 acres.

“Mosquito Control”

- 9 incidents of encephalitis activity have been found throughout St. Charles Parish this year.

“Public Awareness”

What is Mosquito Control's Plan ?

Additional Surveillance

- Looking for high populations of vector mosquitoes
- Parish wide use of multiple surveillance traps and methods
- Larva sampling
- Additional inspections
- Focused treatments
- Public education

Threshold Treatments

- Thorough inspections
- Frequent adulticiding treatments
- Re-trapping
- Public information distribution

WELCOME TO THE ST. CHARLES PARISH DEPARTMENT OF

Public Works and Wastewater
