

St. Charles Parish Planning & Zoning

This letter is in reference to the Commercial property at 21 Barreca St. Norco, LA.

We the signed below are in OPPOSITION of changing the zoning to a Multi-Residential R3 zoning. We need more job opportunities in our community and not multi-purpose rental properties that benefit nobody but the business developer. We are concerned that re-zoning would change the character of our neighborhood and lead to more people, traffic, safety issues and noise. It would also cause our property values to decrease dramatically. Please take a moment and answer one question. Would you approve this re-zoning if this was going to be your neighbor?
